

Juan Sebastian Urrea Lopez

Bogota, Colombia | jurrea5518@gmail.com | jsurrea.github.io | js-urrea | jsurrea

EDUCATION

Erasmus Mundus Joint Master – EMJM IPCV	EU (France, Spain, Hungary)
M.Sc. <i>Image Processing, Computer Vision & AI</i>	Sep 2026 – Present
• Fully funded EU scholarship; U. Bordeaux, UAM Madrid, PPCU Budapest	
Universidad de los Andes	Bogota, Colombia
B.Sc. <i>Systems & Computing Engineering, Magna Cum Laude, GPA: 4.69/5.0</i>	2019 – 2025
• Full-tuition merit scholarship (6 years). Distincion Ramon de Zubiria (highest GPA in department)	
• 11th best national score on Saber Pro (200K test-takers). 16th on Saber 11 (600K+, 463/500)	
B.Sc. <i>Industrial Engineering, Magna Cum Laude, GPA: 4.70/5.0</i>	2019 – 2024
Minor <i>Biomedical Engineering</i>	2019 – 2025

EXPERIENCE

Truora Inc. (YC W19)	Aug 2025 – Present
Software Engineer	Bogota, Colombia
• Architected serverless AWS integration (EventBridge, Lambda/Go, API Gateway) syncing HubSpot data.	
• Implemented webhook signature validation and secure API key rotation for data integrity.	
Universidad de los Andes	Jan 2026 – Jun 2026
Graduate Teaching & Research Assistant	Bogota, Colombia
• Developed educational material and workshops for AI course ISIS1611 (330 students).	
• Conducted graduate research in computer vision and software engineering.	
Caseware International	Jan 2024 – Aug 2025
Software Developer	Bogota, Colombia
• Led zero-downtime RDS-to-S3 Parquet migration for 100K+ users with dual-layer validation.	
• Built Java GraphQL client and New Relic dashboards; contributed accessibility and ag-grid components.	
Multiaservi Ltda.	Dec 2024 – Jun 2025
Application Developer	Bogota, Colombia
• Built offline-first Flutter app with Nest.js backend (Auth0, RBAC) for rural tax-auditing.	
• Designed real-time location-tracking dashboards optimized for low-spec Android devices.	
Cornell University — Dept. of Computer Science	Jun 2023 – Aug 2023
Research Engineer (SURF Fellow)	Ithaca, NY, USA
• Studied inline-test co-evolution across 30+ open-source Java projects under Prof. O. Legunsen.	
• Built automated pipeline simulating Git history; curated 200+ statement-level breaking changes.	
Kimberly-Clark Corporation	Jul 2022 – Jan 2023
Data Scientist	Bogota, Colombia
• Applied NLP embeddings to deduplicate 30K client records; automated Power BI docs (100+ hrs saved).	
• Implemented production monitoring pipeline for a churn-prediction model tracking data drift.	

PUBLICATIONS

ANTARES: A Software-Based Tool for Simulating Naval Radar Operations	2025
• J. S. Urrea-Lopez, C. Barreto-Reyes, M. Linares-Vasquez. IEEE International Conference on Military Technologies (ICMT) . [Paper] [Code] [Demo]	
Real-Time Face Mask Detection with SSD	2021
• E. S. Lozano Roa, J. S. Urrea Lopez, I. D. Chacon Silva. IEEE 2nd Intl. Congress of Biomedical Engineering (CI-IB&BI) . [Paper] [Code]	

VOLUNTEERING

Open Source Uniandes Founder	2022 – 2025
• Founded open-source community at Universidad de los Andes; tools serving 8K+ students.	
Ego4D — Meta AI Research Data Contributor	Jun 2021 – Aug 2021
• Contributed egocentric video footage to the world's largest first-person video dataset.	

SKILLS

Languages: Python, Go, TypeScript, Java, Rust, Dart, SQL, C	
ML / AI: PyTorch, TensorFlow, CNNs, Transformers, Diffusion Models, RL, LLM Fine-tuning, Object Detection	
Cloud & DevOps: AWS Lambda, EventBridge, API Gateway, GCP, Docker, GitHub Actions, New Relic	
Web: React, Flutter, Astro, Vue.js, Tailwind, Nest.js, Node.js, GraphQL, REST, Auth0	Databases: PostgreSQL, Redis, DynamoDB, Firebase
